Nolan Education Management
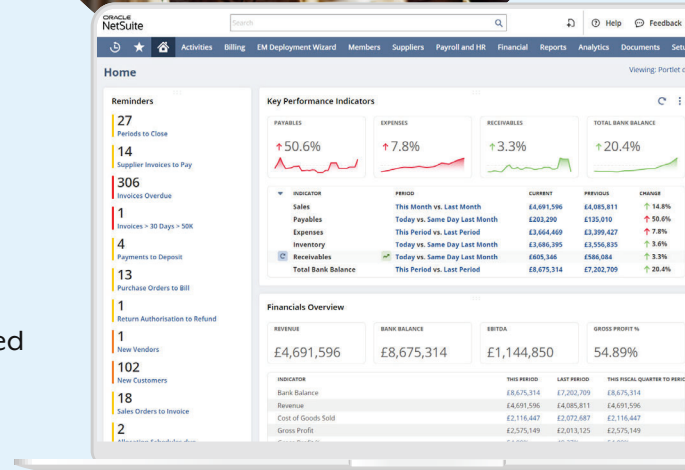

Member and Financial Management designed to suit your College

Cloud-based solution for fully integrated College Management

Nolan Education Management enables colleges to replace their on-premise finance systems with a more powerful and flexible cloud-based solution.

Member management, student billing, collections and fund-based financial reporting provides a complete end-to-end view of the members and your college income.

Built within an industry leading cloud-based solution, Nolan Education Management brings the functionality, security and reliability needed to manage all aspects of the college.

Real-time visibility and reporting into the College and its finances.

Role based dashboard enables you to manage what is important to you

Easy integration with CamSIS or Evision for a fully secure system to manage all areas of the College.

Built on the #1 cloud-based ERP

ORACLE NetSuite

As used by leading Oxford and Cambridge colleges
